MINI BOWSERWASHER

The Ultimate Self Contained Compact Cleaning Machine

At Brendon we can control all of the manufacturing processes. Thanks to our skilled in house team we Design it, Cut it, Bend it, Weld it, Mold it, Paint it, Build it and finally Test it!

That's a great depth and strength to have and it allows us to adapt and react quickly to build and deliver just what our customers need and when they need it!

Our machines are "BUILT TO LAST" and many machines are still working reliably after more than 30 years of service.

Parts and service back up is very important to us and we pride ourselves on our next day parts availability.

APPLICATIONS

- Construction Plant Wheel Washing
- Decks and Patios
- Cars and Trucks
- Exterior Walls
- Fences and Gates
- Boats and Watercraft
- Gutters and Downspouts
- Surfaces for Painting or Staining
- Construction Equipment

Introducing the Brendon Mini Bowser – the ultimate all-in-one cleaning solution designed to tackle any cleaning job, anywhere. With its onboard 125-liter water tank and a powerful pressure of 2000 psi / 140 Bar, you can be sure that no place is out of reach. Whether it's cleaning patios, driveways, and Street Cleaing, the Brendon Mini Bowser can handle it all.

With a choice of either a Honda Petrol or Yanmar Diesel engine, you can be assured of both long life and durability. No more worrying about replacing your cleaning equipment every few years - the Brendon Mini Bowser is built to last.
